WHAT THE REQUESTS WERE ABOUT

CATEGORY	TICKETS	SHARE
IT & Medical Tech	13	41%
Operations	13	41%
HR	3	9%
Finance	3	9%

Every figure is computed from stored tickets, including their first-response and resolution timestamps. Tickets without a timestamp are reported as untracked, not as fast. Targets are proposed internal targets (response: High 15 min, Medium 2 h, Low 8 h; resolution: High 4 h, Medium 8 h, Low 24 h), not hospital policy.
