Weekly business report

All departments · 2026-10-31 to 2026-11-06 · generated 2026-11-06

32	13	1 h 12 min	67%
TICKETS	HIGH PRIORITY	MEDIAN RESPONSE	MET RESPONSE TARGET

EXECUTIVE SUMMARY

Ticket volume is down 29% on last week (45 to 32). IT & Medical Tech is the largest category with 13 of 32 tickets (41%).

High-priority tickets make up 41% of the week (13 of 32); on-call capacity is under pressure.

Median first response was 1 h 12 min (mean 2 h 58 min, worst 16 h) across 30 answered tickets; 2 still unanswered. 67% of answered tickets met their proposed response target (High 15 min, Medium 120 min, Low 480 min). Response performance was well below target for High and Medium priority tickets and close to target for Low priority tickets.

2 tickets are still Open (unanswered) out of 32.

Outlook: about 40 tickets are expected over the next 7 days, but with only 7 days of history no error margin can be quoted. Treat this as a planning aid, not a prediction.

KEY FINDINGS

FINDING	EVIDENCE	CONFIDENCE
Volume trend	45 to 32 tickets (-29%)	solid
Largest category	13 tickets, 41% share	solid
High-priority load	13 High, 41% of week	solid
First response	median 1 h 12 min, mean 2 h 58 min, n=30	solid
Response targets	67% met, n=30	solid
Target gaps	well below: High, Medium; close to: Low	solid
Unanswered	2 of 32 Open	solid
